- ✓ The most important information (how to get this item) on the first sight
- ✓ Only the „best“ items are displayed, not all items
- ✓ Shortcut to avoid loading the (potentially confusing) detailed record view

The screenshot shows the TUHH Library search interface. At the top, there is a navigation bar with links for 'TUHH Library', 'Blog', 'Loan', 'Find', 'Study & Work', and 'Publishing'. Below this, a search bar contains the query 'information' and a 'Q Find' button. The search results are displayed in a list format, showing two items:

Item ID	Title	Author	Year	Format	Location
1	Does IT matter? : Information technology and the corrosion of competitive advantage	by Carr, Nicholas G.	2004	Book	LBS BWE-700
2	Industrial biorefineries and white biotechnology		2015	Book	LBS BTK-500

On the right side of the search results, there is a 'Narrow Search' panel with the following options:

- TUHH-Stocks only
- Online only
- University Publications only

Below the narrow search panel is a 'Format' panel with the following options:

- eBook (39,628)
- Book (29,579)
- eJournal (5,356)
- Journal (1,136)
- Zeitschriftenband (854)
- Dissertation (415)

Simple cases, where we only have one item of this record

- Available copy for loan in our reading rooms
- Available copy for loan in our closed stack
- Available presentation copy in our reading room
- Unavailable copy (on loan)
